

Think Like an Engineer, Speak Like a Leader

The ins and outs of high-performance engineering leadership

General Session / Breakout / Webinar

Engineering management done correctly balances the needs of technical requirements, growing people, and keeping an eye on the business. As an engineer, technical lead, engineering manager, or engineering executive, your ability to build trust and influence is key to your success and the success of the people you lead. Whether it's a functional team, a team of managers, or a project team, people get more done when they work together effectively and harmoniously. That's not as easy as it sounds. Almost all engineering leaders struggle with what role they play at some point or another.

On the other hand, successful engineering leaders deliver results, carry out difficult tasks, and make better decisions. **This program will show you how to leverage your ability to think like an engineer in the context of performance leadership** and help you move to the next level, no matter where you are right now.

Andrei understands leading for performance in the context of engineering and how you can become more effective. He can help you unlock your team's potential and accelerate your team's success.

You will learn...

- How to create the conditions that enable team success
- How the Five Laws of Success make it easy to build trust and influence with others
- How getting your best thinking on one page can catapult your ability to bring the best out of each person on your team.
- The art of building a team for efficiency, stability, and performance

Testimonials

His delivery is fantastic, providing quite a bit of content and knowledge, while keeping the delivery interesting and fun. I would be completely confident in suggesting Andrei as a speaker, business consultant and coach.

- Bill Knapp, Esq. - Keynote Speaker and Success Coach

He demonstrated an extraordinary presence on stage with a unique, captivating style of delivery. His presentation was thought-provoking and to the point. Dr. Jablokow was stellar.

- Dr. Kyle E. Rarey, Professor, University of Florida College of Medicine

Do NOT have Andrei work with you unless you want the best in his industry. Absolute! This man knows his 'stuff' has a deep interest in helping others and is totally committed to YOU. Highly recommended.

- Charles G Read, Chartered Financial Consultant
