

Mary Rooney is the founder and President of EnviroAce, LLC located in Allentown. EnviroAce specializes in providing flexible Environmental Compliance Support to consulting companies, manufacturers and community groups. Services include air permitting, regulatory compliance, and technical assistance related to Superfund Sites. EnviroAce was founded in 1999 and is a woman-owned business.

Mary has a bachelor's degree in Civil Engineering from Penn State. She worked for two years in Kenya as a Peace Corps volunteer improving the water supply for a rapidly growing town of 25,000. Prior to EnviroAce, Mary spent eight years remediating contaminated manufacturing and superfund sites.

Mary forms long-term relationships with her clients and has been working for many clients for more than ten years. Her long-term relationships with state and federal regulators in the tri-state area are a plus with clients.

Outside of work, Mary has been a team support person and regional judge for PJAS. She is active in SWE and currently serves on the scholarship committee. Mary is a long-time Girl Scout volunteer and has worked primarily with middle and high school ages. She teaches the girls valuable life skills like goal setting, budgeting, and project management. She emphasizes the value of STEM careers and provides them with real leadership opportunities. Her former scouts have earned hundreds of thousands of dollars of college scholarships. Mary now leads an energetic troop of Allentown Junior Girl Scouts.

Mary's inspiration of the next generation of engineers extends to her family. Mary's two daughters are currently studying engineering. Michaella received a LVPSPE scholarship in 2013 and will graduate with honors this May from University of South Carolina with a degree in Chemical Engineering. Michaella begins work with Nestle in June. Her younger daughter, Julie received a LVPSPE scholarship in 2015 and is studying Civil Engineering at Pitt. She will work for the Walsh Group this summer in Pittsburg. Mary lives in Allentown with her husband Chris

Hoffman who is the Nuclear Fuel Manager at Talen Energy. They enjoy hiking, biking and skiing: any excuse to be outdoors!
